## About Alex’s Lemonade Stand Foundation

Alex's Lemonade Stand Foundation (ALSF) emerged from the front yard lemonade stand of 4-year-old Alexandra “Alex” Scott, who was fighting cancer and wanted to raise money to find cures for all children with cancer. Her spirit and determination inspired others to support her cause, and when she passed away at the age of 8, she had raised \$1 million. Since then, the Foundation bearing her name has evolved into a national fundraising movement. Today, ALSF is one of the leading funders of pediatric cancer research in the U.S. and Canada, funding more than 1,000 research projects and providing programs to families affected by childhood cancer. ALSF is also the only childhood cancer research organization that has been given the NCI peer-reviewed funder designation for rigorous selection of research grants. The mission of ALSF is to change the lives of children with cancer through funding impactful research, raising awareness, supporting families, and empowering everyone to help cure childhood cancer.

## Reach Grant Program Description

The purpose of the Reach Grant is to advance ALSF’s mission to find cures and better treatments for childhood cancers by providing support to move hypothesis-driven research into the clinic. Significant barriers exist that impede the translation of innovative and important ideas to the clinic. The Reach Grant seeks to remove one of these barriers by providing support for important preclinical projects that are necessary to move a study from the pre-clinical arena into a clinical trial. Thus, the goal of this award is to support translational studies that will result in a phase 1 and/or 2 clinical trial, two to three years from the project start date. Examples include but aren’t limited to, completing IND-enabling studies, providing requisite preclinical data for clinical trial development, or perhaps through the validation of biomarkers that will enable selection of the correct patients for entry into new clinical trials.

## Application Timeline and Review

- A full proposal must be submitted that meets all guideline criteria as well as all eligibility criteria; otherwise, applications will be administratively rejected.
- Proposals will be reviewed by an independent panel of experts according to the NIH recognized peer-review process.

### APPLICATION TIMELINE

<b>PROPOSALS DUE</b>	<b>March 28, 2022 <u>by 8:00 p.m. (ET)</u></b>
<b>AWARD NOTIFICATION</b>	August 2022
<b>PROJECTED START/END DATE</b>	November 2022 - November 2024

### Applicant Eligibility: Must be Met at the Time of Application

- Applicant institutions must be based in the United States or Canada. Applicants need not be United States citizens. Funds must be granted to nonprofit institutions or organizations.
- Applicants must have an MD, PhD, or MD/PhD or equivalent and be appointed as faculty (or equivalent) at an academic institution.
- Applicants must have a demonstrated track record of pediatric cancer research with experience in translational research.
- Multiple investigator applications that bring together pairs or teams of researchers with complementary expertise are encouraged.

### Scope of Proposal

- Proposals must fall within the scope of Alex's Lemonade Stand Foundation's mission, focused on childhood cancers. Proposals with a sole/primary focus on patients >19 years of age will not be considered.
- Proposals will be evaluated based on their late-translational potential. Thus, screening projects, discovery projects, and early-translational projects are not appropriate for the Reach Grant.
- The proposal must be hypothesis driven and demonstrate feasibility. Preliminary data are required.
- Proposals should be milestone driven and explicit timeline and time-based deliverables for the proposed studies must be presented. A milestone is defined as a scheduled event in the project timeline, signifying the completion of a major project stage or activity.

### Budget

The requested budget should be in proportion to the scope of the proposed project and should be for direct costs of \$250,000 USD or below over 2 years. A maximum of \$125,000 in total costs may be requested per year.

#### Restrictions:

- ALSF adheres to the NIH salary cap for principal investigator(s).
- Indirect costs are not allowed.
- The grant may not be renewed; one no-cost extension request is allowed.
- Other budget items may include fringe, travel, supplies and small pieces of equipment (less than \$5,000). ALSF funds cannot be used for tuition remission. View ALSF's complete [budget policy](#).
- If utilizing a subcontract or subaward, you must include this expense in the budget.
  - No indirect costs will be paid.

- The PI's institution is responsible for disbursing funds for subawards and/or subcontracts.

### Resource and Data Sharing

Grant recipients are expected to share unique resources developed under this funding award, and as part of the application, applicants are required to submit a Resource Sharing Plan. Applicants should describe their track record of generating resources that are broadly re-used, the specific resources that will be generated in this proposed project, and the mechanisms by which those resources will be shared. To demonstrate a commitment to sharing that will be actualized, applicants should provide information in their sharing plan that clearly states the type of resource that will be shared, the method, characterization and timing of such sharing, and the anticipated resources (budget, personnel, etc.) required by the applicant and the resource user. Reviewers will consider the extent to which the dissemination of resources produced under the award will enhance or diminish the impact of the proposed work. For a full description and an example, see [the Resource Sharing Form](#). For the full Resource Sharing Policy visit our [Resources for Grant Applicants](#) page.

### Resubmissions

One resubmission of an application previously reviewed by ALSF's Review Board is permitted. Applicants should respond to the prior ALSF critique of the proposal in the Resubmission section of the application. The response to critique will be scored in the review process, and resubmissions compete with new applicants for funding.

### Restrictions

- ALSF does not fund proposals for research utilizing human embryonic stem cells or non-human primates. Research with human induced pluripotent stem cells is permissible.
- Awards are not renewable.
- Clinical trial expenses are not fundable under this mechanism.
- Applications in psychosocial aspects of pediatric cancer and/or cancer control are not eligible for the Reach Grant.

### Grant Policies & Reporting Requirements

- Please review ALSF's Grant Policies, including Budget Expenditures, Resource Sharing and Grant Agreement with IP, found on the [Resources for Grant Applicants](#) page.
- Annual progress reports, and each year of funding is contingent upon demonstration of satisfactory progress toward the completion of proposed research objectives and appropriate budget expenditures.

- Minor carry-over of funds (25% or less) is permitted each year with justification. Each year's budget will be approved subsequent to the review of project progress and milestones.
- ALSF may elect to partially fund or to hold new funds if carry-over is excessive.
- A final report is required at the conclusion of funding. Report must state findings, expenditures, as well as publications and presentations which acknowledge ALSF funding.
- The grant may not be renewed; one no-cost extension may be requested in the final report.
- Publications, presentations and posters featuring results of the experiments funded by this grant mechanism should acknowledge "Alex's Lemonade Stand Foundation" and include the award number. Copies should be sent via email to [Grants@AlexsLemonade.org](mailto:Grants@AlexsLemonade.org).

### Application Package Instructions

- All sections described below should be combined into one PDF (max 20 MB) and uploaded to the ALSF online application form ([see Application Submission Instructions](#)).
- All templates mentioned can be found at ALSF's [Resources for Grant Applicants](#) page.

### Format Instructions

- PAGE HEADER: All pages of the application should be numbered; the name of the principal investigator should appear in the upper right-hand corner of each page.
- FORMAT: Follow NIH format guidelines: Arial, Helvetica, Palatino Linotype, or Georgia fonts with a font size of 11 points or larger with a minimum of ½ inch margins.
- ORDER & LENGTH: The order of the application should be followed, adhering to the maximum number of pages allowed for each subsection indicated in parentheses.
- Appendices are not allowed.

### Section Descriptions

#### 1. Project Information

- a. **Cover Page (1 page):** Download and complete the [Cover Page Template](#).
- b. **Table of Contents (1 page):** Provide a Table of Contents with page numbers to the corresponding sections.
- c. **Scientific Abstract (0.5 page):** Summarize the research objectives and rationale.
- d. **Impact Statement (0.5 page):** How will this project impact childhood cancer?

#### 2. Budget/Justification (3 pages):

- a. **Budget Template (1.5 pages):** Complete the [ALSF budget template](#). The signature from an institutional representative on the cover page of this grant application specifically acknowledges and accepts this budget and acknowledges that no indirect costs will be paid.
    - i. The award amount is \$250,000 over 2 years.
    - ii. ALSF adheres to the NIH salary cap for Principal Investigator(s)/Co-Investigator(s).
    - iii. Indirect costs are not allowed.
    - iv. If utilizing a sub-contractor, you must include their budget. No indirect costs will be paid to the sub-contractor.
    - v. Reasonable travel expenses to national/international research meetings to disseminate findings may be budgeted.
  - b. **Budget Justification (1.5 pages):** Include a narrative for the following. Use N/A in sections as needed:
    - i. Personnel
    - ii. Subcontractors/Subawards/Consultants
    - iii. Travel
    - iv. Computer and Software
    - v. Other
3. **Biographical Sketch(es):** Use the NIH five-page biographical sketch (SF424) format for the principal investigator and all key personnel. **Please list all current and pending funding that would support financial productivity of the PI in Section A (Personal Statement).**
4. **Research Plan**
- a. **Resubmissions (1 page, if applicable):** If this proposal was previously submitted to ALSF and did not receive funding, describe any changes in response to the reviewer critiques (e.g. changes in experimental design, scope, new data)
  - b. **Specific Aims (1 page):** List the goals, long-term objectives and what the specific research proposed in this application is intended to accomplish. State the hypothesis to be tested and relevance to childhood cancer research.
  - c. **Significance (1 page):** Describe the relevant background that supports the current research plan. State the significance and importance of your proposed project with respect to childhood cancer research. Relate the specific aims to the goals and long-term objectives. Include potential impact in the clinic for children battling cancer.
  - d. **Innovation (1 page):** Describe how the proposed research challenges and shifts paradigms, or introduces a novel concept, approach or technology and how this could potentially translate to the clinic in the near or long term.

- e. **Approach (5 pages):** Describe the experimental approach to the research question and how the research will be realistically accomplished within the proposed funding period. This section must include but is not limited to:
  - i. A timeline
  - ii. Feasibility of the approach to reach project goals; if available, include PI's preliminary studies pertinent to the project.
  - iii. Anticipated potential problems and plans to address these issues.

An overall clinical development plan for the therapeutic approach must be included with a projected timeline for completing the trial. (Note: This grant does not fund clinical trials.)

5. **Resource Sharing (1-2 pages):** Use the [Resource Sharing Form](#) to complete this section of the application to describe the outputs from the proposed project and how they will be shared. Reviewers will be asked to consider the manner in which outputs from this project will be shared and the extent to which this plan will increase or decrease the impact of the proposed project.
6. **Literature Cited (no limit):** Use Vancouver or NIH style (numbered citations within text) format.
7. **Human Subjects (1 page):** If approved, include the IRB approval letter or equivalent. If approval is pending, indicate the expected approval date. If IRB approval is not applicable, include a note in this section.
8. **Vertebrate Animals (1 page):** If approved, include the IACUC approval letter or equivalent. If approval is pending indicate the expected approval date. If IACUC approval is not applicable, include a note in this section.
9. **Letters of Support (no limit):** Include any appropriate letters from individuals confirming their roles in the project. Institutional letters of support are not required, but can be included, especially if there are issues of feasibility that can be addressed.
10. **Appendix:** No appendices are permitted.

### Application Submission Instructions

**Applicants must not use the Internet Explorer (IE) browser as it is not compatible with the online portal. Chrome and Firefox browsers are recommended.**

1. To start an application, navigate to the portal at [ALSFapps.force.com](https://ALSFapps.force.com).
  - a. Returning applicants: login with your username and password.

- b. First time applicants: click the “New User?” link and complete your one-time registration and then login.
2. After you’ve logged in, follow the directions on the Dashboard apply for a Research Grant. Complete the online form with applicant contact and project information.

TIPS:

  - a. Enter the Project Title first, even if it is tentative. Then Save.
  - b. If someone other than the PI is entering information into the portal, the “Contact Person” name entered **must** be the PI’s name.
3. The application document must be uploaded as **one PDF** (maximum of 20 MB).
4. You may save your application to finish later. Go to [ALSFapps.force.com](https://ALSFapps.force.com) and login again. You will land on your dashboard. Click “Applications” to the left to edit your application in progress.
5. Once completed, submit the application by clicking Review & Submit. You will see error messages for any required fields that need to be completed. Review all information and click Submit again.
6. After your application has been successfully submitted an email confirmation will be sent. You will not be able to amend the application after submission.

## Contact

- If you have any questions regarding the ALSF Reach Grant, please contact Judy Oliver, Sr. Grants Coordinator, at 856-408-3995 or by email at [J.Oliver@AlexsLemonade.org](mailto:J.Oliver@AlexsLemonade.org).
